Cobra 25LTD:

Model 25-CF1 Side Microphone
Model 25-CF2 Front Microphone

Features:

- * Made from durable High Gloss Lexan Material for Permanent Lasting Durability!
- * No messy glues or special tools required - Just remove the Knobs, peel and stick!
- * No need to remove screws - Installs directly over the radio's existing faceplate!

Installation:

- * Carefully peel off the cutouts from the new faceplate and place the two flag logos on the backing for later use.
- * Use a knife or small screwdriver to remove the knobs from the radio.
Hint - Use one or more of the cutouts under the blade to prevent marring the radio's chrome bezel.
- * Start the new faceplate from left to right using the bezel's indentation as a guide.
- * Replace the knobs to finish the job - Stick the logo cutouts on top of the case or Microphone to give the unit a factory look!
