

R2 and R3 Variation Note
 R2 and R3 adjust the voltage applied to the gate of the ERF7530 and ERF2030 respectively. The resistor value varies depending on the V_{TH} letter code of the transistor. See below.

ERF7530 with V_{TH} letter codes A - E = 4.7K ohm at R2
 ERF7530 with V_{TH} letter codes F - J = 3.3K ohm at R2
 ERF2030 with V_{TH} letter codes A - E = 4.7K ohm at R3
 ERF2030 with V_{TH} letter codes F - J = 3.3K ohm at R3

POWERBAND™

Title: **RFX75** SCHEMATIC

Size	Document Number a. Applies to RFX75 Units with Serial No. 49090000 and Higher b. PCB's marked RFX75 rev2	Rev 4.0
Date:	December 29, 2009	Sheet 1 of 1
